September 2020

Dear Parent or Guardian:

Your son or daughter is or will be taking a required health education class at Croton-Harmon High School. We believe that health education is a combined responsibility of home, school and community and our mission is to inspire our students to become responsible for their overall wellness in the hope that they will choose healthy lifestyle enhancing behaviors both now and in the future.

State law requires that your child complete and pass a semester of Health Education and our district meets that requirement through a required 10th grade Health Education class taken during the fall or spring term.

Our curriculum is designed to help students understand that the decisions they make can affect the quality and quantity of their lives both now and in the future. Our health lessons and activities focus on both the National Health Standards and the New York State Health Guidance document.

The required AIDS Curriculum for New York State focuses on both abstinence and safe practices for HIV prevention. As part of this curriculum we will be discussing and demonstrating the proper use of a condom as a safe practice. If you would prefer your son/daughter not be present for this part of the AIDS curriculum, please notify us.

If you have any questions, please call or email me at your earliest convenience. I am excited to be part of your child's educational experience at Croton-Harmon High School.

Sincerely,

Kerri Tracy

Ms. Kerri Tracy – Health Educator
