

# Springtime Celebrations of Learning

Hey, Croton-Harmon Students, here are five different ways to celebrate your ability to flex your Profile of the Graduate skills. Each challenge is optional and your submission will be featured online at a Springtime Celebration of Learning webpage for each event!

## EXPERIENCE SCIENCE 2020

In honor of the 50th Anniversary of Earth Day, design a science project that addresses an area of Environmental Sustainability.

## THE VIRTUAL TALENT SHOW

Show off your creativity by innovating something new: a song, a work of art, a craft, a recipe, a joke, or performance art!

## YOU BE THE TEACHER

Have you had the opportunity to explore your own area of interest or expertise? We want you to share it with all of us!

Critical Thinking/  
Problem Solving

Flexibility/  
Adaptability

Creativity/  
Innovation

Initiative/  
Self-Direction

Communication/  
Collaboration

EMPATHY

## POETRY JAM

Being home all this time has given you plenty of opportunities to be flexible and show initiative. Write a poem about your experience while you've stayed home or your hopes for when you can leave your home freely again.

## ODE TO OUR HEROES

While many of us have been staying at home, healthcare workers and first responders continue to go to work to help other people. Find a way to say, "Thank you!"

[CLICK HERE TO SUBMIT YOUR WORK](#) — Submissions can be a two-minute video, screencast, PowerPoint with voiceover, series of photos or a collage, an audio recording, a written document... Really any digital medium you think best captures your efforts!
