

Croton-Harmon Union Free School District

eSchool Data Parent Portal Q&A

The eSchoolData (eSD) Parent Portal is an easy, convenient and efficient way for you to view your child's attendance, schedule, grades and progress reports online at any time via our district website. We are offering you 24/7 access to eSchoolData, our student management system.

What information will we have access to?

You will immediately be able to access your child's attendance, school schedule, report card grades and progress reports.

What is the District doing to protect my child's privacy?

Your child's privacy is extremely important to us. You will need to have your username and password to login to this portal. Details for online registration to the portal are posted on our school website under the Parents tab on the left sidebar. We ask that once approved, you please keep your username and password confidential.

What about security?

The eSchoolData Portal is hosted in a secure Network Operation Center, which is professionally monitored around the clock. The eSchool Data Parent Portal represents a snapshot of data that is contained in the District's "live" student information system and permanent records cannot be altered in any way through the portal.

Who can I contact if I have questions?

Please email parents@chufsd.org
